

ONE SOLUTION

FOR A PEACE OF MIND
THAT'S PRICELESS.

ALWAYS ON

CUMMINS GENUINE GENERATORS, 17-550KVA

WHY SHOULD YOU BUY FROM CUMMINS POWER GENERATION?

THE ONE INTEGRATED PRODUCT SOLUTION FOR EXCEPTIONAL PERFORMANCE

A generator is more than just assembling an engine, alternator and cooling system – its about components designed to work together, to perform seamlessly even under tough conditions and provide years of trouble free operation.

Cummins is the only manufacturer in the power generation industry that designs, engineers, manufactures and tests Cummins engines, Stamford alternators and major components of our power systems across the board to ensure exceptional performance and reliability.

With every aspect of our power systems engineered to work together effectively, we're able to provide the highest degree of system integration from the outset, differentiating us from the competition.

Whether it's a single generator to provide backup power to your home, or a fleet of generators powering your chain business, you can depend on **genuine** Cummins generators to power your needs.

This is the **genuine** Cummins Power Generation promise.

THE ONE COMPANY FOR COMPLETE CONFIDENCE

Cummins is a global technology leader with a broad portfolio of power solutions with more than 100 years' history. Buying from Cummins Power Generation is buying from a global company with local support. No matter where you are, your qualified local Cummins network is there for you every step of the way for any project.

Backed by a comprehensive one-stop warranty and aftermarket service, you can have total confidence in knowing you will always get Cummins genuine parts and Cummins capable certified service. No finger pointing, no confusion, just call your nearest Cummins sales and service network.
