

PRODUCT ANNOUNCEMENT

24-31

DATE: 1-August-2024

TO: Global Onan Marine Distributors and Dealers

SUBJECT: Onan MDC Marine generator

Cummins is excited to reintroduce the expanded marine genset portfolio with the release of the Onan Marine MDC product line. Utilizing the recently developed B4.5 engine, the MDC package integrates the Cummins engine, delivering a fully serviceable package to meet the customers need, both in terms of product, and support.

DETAILS OF ANNOUNCEMENT

The Onan Marine MDC product line expands the power range up to 110kW and offers enclosed and open configurations suitable for both Recreational and Commercial vessels. For more details about the pre-configured specs, accessories and feature benefits refer to the [Marine Introduction Bulletin](#) originally distributed in May 2023.

Pricing for the MDC product line can be found on CPQ. Only pre-configured specs are available currently. Configurable product will be available soon.

The MDC product is manufactured at the Cummins Power Generation facility in Fridley Minnesota. Standard logistics arrangements with Fridley will need to be made.
