

BLUEQUIP

Bulk AdBlue® & Coolant Tanks

Self Bunded BlueSlimline Version

Standard Specification

- Variable options of pump mounting - inside, front of sides.
- Thermal insulation keeps Adblue within its optimum temperature.
- Bunded construction makes the tank extremely secure.
- Level gauge and overfill protection prevents leakages.
- High resistance against mechanical impact, due to strong bundled construction.
- Protection against unauthorised access & changing weather conditions is ensured with a lockable housing, which protects the inlet & outlet connections.
- The filling line with dry disconnect fitting make easier & spill free whilst filling.
- **Slimline tanks are covered by a 5 year warranty, pump and accessories are covered by a 1 year warranty.**
