

Cummins Guidanz™

INLINE™ Vehicle Datalink Adapters

INLINE mini

With Cummins' new Bluetooth®-enabled INLINE mini Vehicle Datalink Adapter, data can be exchanged wirelessly between the Engine Control Module (ECM) and Bluetooth-equipped smartphone or tablet, directly to the Cummins Guidanz mobile app.

Connects via Bluetooth.

No Wires.

No Hassles.

FEATURES & BENEFITS

- 9-pin connector which plugs directly into SAE J1939-13 diagnostic port in your equipment
- Includes automatic CAN data rate detection with an LED indicator showing the amount of power and data being transferred at any given time
- Works with the Guidanz mobile app, available for both iOS® and Android™ platforms
- Certified for use in the U.S., Canada, Mexico, Brazil, Peru, Colombia, Australia, New Zealand and the European Union (member countries only). For certifications outside of North America, and more product information, visit cumminsengines.com/inline.

INLINE Vehicle Datalink Adapters

INLINE 7

The INLINE 7 adapter communicates with your PC using a Universal Serial Bus (USB) through a standard USB connector as well as through Wi-Fi or Bluetooth®. When operated in Bluetooth mode, data can be exchanged wirelessly between the Engine Control Module (ECM) and Bluetooth-equipped smartphone or tablet, directly to the Guidanz mobile app.

Supports USB, Wi-Fi and Bluetooth technologies in a single device and communicates with your PC.

FEATURES & BENEFITS

- Fully compliant with the Technology and Maintenance Council's RP1210 standard
- Supports three simultaneous CAN connections and offers baud rates of 250k, 500k and 1 megabaud
- Supports several other protocols such as J1708, J1587, ISO 15765, ISO 9141 (K and L line)
- Works with Guidanz mobile app in Bluetooth mode
- Datalink Adapter incorporates strain relief secure cables for a robust connection
- Certified for use in U.S., Canada, Mexico, Brazil, Australia, New Zealand and European Union (member countries only).
