## **Earnings Update – Q1 FY 05**

**PUNE, JULY 29, 2004**

**Cummins India Limited profits up by 30%**  
**Growth in Exports & Domestic markets, Sales for the quarter up by 32%**

### **Results Highlights for the Quarter ended June 30, 2004**

Rs Millions

<b>Sales</b>	<b>Q1 FY 05</b>	<b>Q1 FY 04</b>	<b>% growth</b>
Cummins India Limited	2,815	2,125	32%
CDS&S	1,035	908	11%
CASL	87	59	47%

- CIL's net sales for the quarter ended June 04 of Rs 2,815 M show an increase of 32% over the corresponding quarter of the previous year. The higher sales reflect improved performance in both the domestic and export segments of the business. The domestic sales have grown by 21% over the corresponding quarter of the previous year.
- The export sales were Rs 792 M as against Rs 457 M in the corresponding quarter of the previous year representing a 73% increase, due to increased shipment of K 38 & K 50 engines for power generation.
- Turbokaizen and Six Sigma cost reduction programs have helped in improving our results despite increase metal and fuel prices, pricing pressures both in the domestic and exports markets.
- Other income is at Rs 135M against Rs. 169 M in corresponding quarter of the previous year. The other income includes dividends of Rs. 50 M (previous year Rs 60 M) received from the subsidiary & duty drawback of Rs 32 M (previous year Rs 7 M)
- Profit before tax at Rs 409 M shows an increase of over the same quarter of the previous year. Profit after taxes increased by 30 % to Rs 289 M as against Rs 222 M in the same quarter of the previous year.

### **Business Highlights**

- CIL continues to grow and progress as planned. The domestic market share position and demand remains strong with exports ramping up.
- In the domestic market, both Powergen and Industrial business continued to witness strong growth driven by strong demand across the entire range with substantial increase in the low and medium range of the market.
- The Low Horse Power facility in Daman has been expanded to meet the additional requirements. Recently, the 1000<sup>th</sup> X series generator has been shipped from there. There is a provision for producing the lean burn B Gas International (BGI) automotive engines in Daman.
- The various cost reduction programs are on track, despite inflationary trends in the economy.
